HTML/ CSS

ADD-ON SKILLS

FREELANCER (1.5+ Years)

UI/UX Designer Experience in

CMS development 20+

Companies/Clients

Video Editing(Premier Pro)

(Photoshop)

CAREER OBJECTIVE

Throughout my learning as a problem solver and Software developer I've emphasized the importance of project based learning and well structured projects and also to become a good problem solver. I enjoy working collaboratively but can also run with projects on my own. Most exciting aspect is meeting the experienced developers to learn from them and keep improving.

WORK EXPERIENCE

Front End Developer and UI/UX Designer

SELF STARTER / Sept 2020 - Dec 2020 / DUBAI, UAE

- Worked on UI library to create reusable React components to save the development time.
- Redesigned User interface of most of the admin side panel according to the Companies new Brand Identity.
- Added new features in design to be implemented by lead developer.
- worked closely with Lead developer to learn the best practices of React and on how to grow in full stack.
- Added value in overall project by contributing in Development, Design and marketing team.

Freelance Web Developer

Upwork - Fiverr / Feb 2020 - Current / WFH

- Worked on small scale React and front-end projects and CMS full stack projects for the different clients around the globe.
- Acquired good communication skills through the journey of freelancing.
- Worked as webflow developer on over 20+ projects

Certifications

- Introduction to Data structure and algorithm from Geeks for geeks
- Complete web design from Figma from Udemy
